

sabre-lite™

3/4 Opants

With minimal seams and an easy fit, the sabre-lite provides comfort and sleek lines without a bunching and biting in all the wrong places. It also has a simple external pocket that sits snugly at the base of your spine and an additional slim fit hip pocket(s) for extra energy supplements. A spandex back dri-cool allow for an unrestricted range of movement and combines with the durability of a performance polyester on the front panels. This unique combination allows sabre-lite to be worn as traditional orienteering pants, or as orienteering tights when a smaller size is worn.

Description: With performance polyester on the two front panels and spandexdri-cool on the two back panels, these lightweight pants also feature a rear lumbar pocket and side hugging hip pocket(s) design.

swift-lite™

elite fit running top

Utilising the unique pattern developed by dirtyd, this top is the ultimate combination of durability and comfort. The combination of lightweight performance materials provides easy movement even in the harshest conditions.

Description: Low cut cycle collar with zip to just above solar plexus. Performance polyester on the front and sleeves for durability and coolness. Spandex dri-cool side panels and a dri-cool polyester back panel to allow movement and moisture wicking. More suited to hot conditions it also works in combination with a thermal under top in cooler more rugged conditions.
